The information contained herein is based on the data available to us and is believed to be correct. Cannon makes no warranty, expressed or implied, regarding the accuracy of this data or the results to be obtained from the use of the product described. Components are listed in Section 2 if they present a physical or health hazard & are present at or above 1% in the mixture. If a component is identified as a carcinogen by NTP, IARC, or OSHA as of the date on this MSDS it will be listed and footnoted in this section when present over 0.1% in product. Negative conclusions concerning carcinogenicity are not reported. Components subject to reporting requirements of Section 313 of SARA Title III are identified in the footnotes in this section, along with typical percentages. Other components may be listed if deemed appropriate. Additional health information may be found in Section 5.
