ECTION VI

HEALTH HAZARD INFORMATION

****** OXICITY INFORMATION:

> Aplisol® is non-infective. It is administered intradermally as an aid in the diagnosis of infection with Mycobacterium tuberculosis. Adverse reactions include an inflammatory response in the skin, with redness and swelling. In highly sensitive individuals, strongly positive reactions including vesiculation (blistering), ulceration, and necrosis may occur at the site of application.

(Refer to current package insert for further information)

SECTION VII FIRST AID INFORMATION

THERAPEUTIC CLASS: Diagnostic aid

ACCIDENTAL INJECTION: Seek prompt medical attention.

EYES: Flush with water for 15 minutes.

SKIN: Wash with soap and water until free of residue.

INHALATION: Remove to fresh air; seek medical attention.

INGESTION: Seek medical attention.

*For additional first aid information call: (201) 540-2000

SECTION VIII SPECIAL PROTECTION INFORMATION

Material should be handled in such a way as to avoid skin and eye contact. Exercise caution when purging air from the adminstration system. Hand and eye protection is recommended. If contact should occur, wash contaminated skin promptly. Launder contaminated clothing and clean protective equipment before reuse.

SECTION IX

SPILL, LEAK, AND DISPOSAL PROCEDURES

ACTION TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:

Prevent exposure. Collect spilled material. Use care in the cleanup of broken glass or dropped syringes. Wash all contaminated surfaces with soap and water. Place waste and waste water in appropriately labeled, sealed container(s) for future disposal.

WASTE DISPOSAL METHOD:

Dispose of as a medical waste in accordance with local, state and federal regulations or the authority having jurisdiction. Incineration in a permitted incinerator is the preferred disposal method.

SECTION X

SPECIAL PRECAUTIONS

STORE AS STATED IN PRODUCT LABELING.
